

The new DX head

The highlight for your bathroom

To be precise.

The DX-head

The new DX head from HEIMEIER offers a thermostatic valve solution with a very attractive look. Elegant and slim – and basically deliverable in any RAL colour (special order). The DX head is available at any time in the colours “traffic white”, “light grey”, “dusty grey”, “graphite grey”, “chrome” and “pergamon”.

A very special hit is the DX head in the chrome-coloured combination with Multilux (for bathroom radiators) – a truly ornament in the bathroom.

The DX head goes down exceptionally well thanks to its completely closed hand wheel which makes the head very easy to clean.

And of course the DX-head possesses the outstanding control know-how of Germany's No. 1 thermostatic valve supplier. Almost every second thermostatic valve comes from the HEIMEIER company – a great track record in the important field of energy conservation.

traffic white
RAL 9016
6700-00.500

light grey
RAL 7035
6700-00.504

dusty grey
RAL 7037
6700-00.505

graphite grey
RAL 7024
6700-00.503

chrome
6700-00.501

pergamon
6700-00.506

*Elegant solution all in white.
DX head with valve cover
from the Design-Line range.*

*The closed hand wheel cap
not only looks good but is
also very easy to clean.*
